

## **JRSP Ministerial Steering Committee Announces Master Developer Qualified Applicants**

The Government of Jordan, represented by His Excellency Mohammad Najjar, Minister of Water and Irrigation. The chairmen of the JRSP ministerial steering committee, recently received statement of qualifications from many interested companies and consortia expressing interest in becoming the Master Developer for the Jordan Red Sea Project (JRSP). The JRSP will assist the Hashemite Kingdom of Jordan in establishing water independence through a long term and stable water supply developed by desalinating Red Sea water.

The JRSP Ministerial Steering committee (MSC) through the JRSP Program Manager has evaluated the statement of qualification documents and is pleased to announce that the following companies and consortia have been selected as *Qualified Applicants* to receive and submit a formal proposal to become the JRSP Master Developer.

- Accionna-Mitsubishi
- ACWA Power
- Jordan Red Sea Group
- Orascom Construction Industries
- Samsung C&T Corporation
- Sinohydro Corporation Limited

Each *Qualified Applicant* will receive a formal Request for Proposal (RFP) from the JRSP MSC. Through the JRSP RFP process, one *Qualified Applicant* will be selected as the JRSP Master Developer.

The JRSP MSC wishes to express appreciation to all parties who submitted a statement of qualifications expressing interest in the JRSP.
